# Interactions Between Cultured Species and Naturally Occurring Species in the Environment

PROCEEDINGS OF THE TWENTY-FOURTH  
U.S.-JAPAN AQUACULTURE PANEL SYMPOSIUM

Edited by **B. Jane Keller**, **P. Kilho Park**, **James P. McVey**,  
**Kazufumi Takayanagi** and **Karumi Hosoya**  
UJNR Technical Report No. 24

# Interactions Between Cultured Species and Naturally Occurring Species in the Environment

## PROCEEDINGS OF THE TWENTY-FOURTH U. S. - JAPAN AQUACULTURE PANEL SYMPOSIUM

Corpus Christi, Texas, October 8-10, 1995

Edited by B. Jane Keller, P. Kilho Park, James P. McVey,  
Kazufumi Takayanagi and Kazumi Hosoya

U.S.-Japan Cooperative Program in Natural Resources  
(UJNR) Technical Report No. 24

Texas A&M University Sea Grant College Program  
TAMU-SG-97-102

## **CREDITS**

The editors acknowledge the contributions of Dr. Carl J. Sindermann, Senior Scientist, and Susie K. Hines, Librarian, at the Southeast Fisheries Science Center Cooperative Oxford Laboratory for their review of the manuscripts for this proceedings, and Anessa Heatherington and Amy Broussard at the Texas Sea Grant Program for formatting and production. This book was produced by the Texas A&M University Sea Grant College Program, which is supported in part by **Institutional Grant NA56RGO388** to Texas A&M University by the National Sea Grant Office, National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

Sea Grant is a partnership of university, government and industry focusing on marine research, education and advisory service. Nationally, Sea Grant began in 1966 with the passage of the Sea Grant Program and College Act. Patterned after the Land Grant Act of the 1860s, the Sea Grant concept is a broad-based scientific effort to better the world for all those living in and out of the sea

# Contents

Marine Aquaculture Regulation in the United States: Environmental Policy and Management Issues.....	1
<i>M. Richard DeVoe</i>	
Effects of Fish Farming on Macroinvertebrates: Comparison of Three Localities Suffering from Hypoxia . . . . .	17
<i>Hisashi Yokoyama</i>	
Nitrogen Budget and Water Quality Management in Larviculture Ponds of the Swimming Crab . . . . .	25
<i>Osamu Matsuda, Show-ying Yang and Tamiji Yamamoto</i>	
Shrimp Farms' Effluent Waters, Environmental Impact and Potential Treatment Methods .....	33
<i>Tzachi M. Samocha and Addison L. Lawrence</i>	
Water Quality Management by Unicellular Algae in Shrimp Larviculture Ponds . . . . .	59
<i>Masanori Okauchi, Masahiro Kobayashi and Yuzuru Mizukami</i>	
Environmental Factors Influencing Clam Culture on Sandy Shores.....	65..
<i>Junya Higano, Kumiko Adachi and Hisami Kuwahara</i>	
A Strategic Approach to Carrying-Capacity Analysis for Aquaculture in Estuaries .....	71
<i>George H. Ward</i>	
Effects of Water Movement on the Fluctuation of Oxygen Concentration in the Lower Layer of Gokasho Bay on the East Coast of Honshu Island, Japan .....	85
<i>Katsuyuki Abo and Satoru Toda</i>	
Concepts of Herd Health for Shrimp .....	91.....
<i>James A. Thompson and Addison L. Lawrence</i>	
Diarrhetic Shellfish Toxins Determined by High-Performance Liquid Chromatography-Fluorometry in Mussels, <i>Mytilus coruscus</i> , from the Niigata Coast of Japan. . . . .	97
<i>Toshiyuki Suzuki, Ryosuke Yoshizawa and Makoto Yamasaki</i>	
Analytical Methods for Diarrhetic Shellfish Poisoning (DSP) Toxins and a Study of Toxin Production by <i>Procentrum lima</i> in Culture .....	101
<i>Michael A. Quilliam, Noriko Ishida, Jack L. McLachlan, Neil W. Ross and Anthony J. Windust</i>	
Osteological Evaluation in Artificial Seedlings of <i>Paralichthys olivaceus</i> (Temminck and Schlegel) .....	107
<i>Kazumi Hosoya and Kouichi Kawamura</i>	
Further Advances Toward the Microbial Management in Closed Recirculating Production Systems of Marine Fish Larvae .....	115
<i>P. Douillet and G.J. Holt</i>	
Accumulation and Toxicity of Cadmium in Marine Fish.....	119
<i>Ryosuke Kuroshima</i>	
Manipulation of Microbial Communities for Improving the Aquaculture Environment.....	125
<i>M. Maeda, K. Nogami, S. Kanematsu and Y. Kotani</i>	

Resolution of Sustainability Issues in South Carolina Shrimp Aquaculture: Progress to Date and Future Direction . . . . .	131
<i>J. Stephen Hopkins, Paul A. Sandifer and Craig L. Browdy</i>	
Viral Diseases in Marine Aquaculture in Japan .....	139
<i>Kazuhiro Nakajima</i>	
Effects of Cultured Fish Feces on Algae Growth .....	145
<i>Hachiro Hirata, Muneyuki Matsuda, Shigenori Uwaguchi, Shigehisa Yamasaki and Masaya Niino</i>	
Monitoring Systems Useful in Mass Production of Larvae for Japanese Fish Culture .....	149
<i>Seiichi Kanamaki</i>	
Reducing the Environmental Impact of High Density Fish Production: An Integrated Approach to Solids Treatment for Recirculating Aquaculture Systems Using Expandable Granular Biofilters . . . . .	157
<i>William Golz and Ronald F. Malone</i>	
Management of a Seawater Recirculation Fish Culture System for Japanese Flounder . . . . .	165
<i>Haruo Honda and Kotaro Kikuchi</i>
